

DOGSMARTZ UNLEASHED

Cleaning Policy

Cleaning of facilities:

You may notice when you enter any of our buildings, they are exceptionally clean and smell great! You may also question why we are so strict with our vaccine and fecal requirements. Well, it's because we care about you and your pup! We believe that your pup should only work in an environment that is clean and safe.

Here's how we do it!

Our yards are scooped twice a day and of course we encourage our students to clean up after their dog.

Our floors are vacuumed and mopped with special disinfectant that kills viruses that can affect your dog. Floors are done after morning and evening classes. Our entire building is mopped at the end of the day and disinfected including door knobs! No item (toy, prop, water bowl, puzzle game, blanket, etc.) is used twice. As soon as something is used, it is disinfected. This includes the chair clients sit on for classes or private sessions or long lines used for

training. If a dog or human touches it, we disinfect it! Each dog has his/her own water bowl which is never shared or re-used without being disinfected.

Even our trash can liners are changed daily.

We not only want to provide you with the best trainers and training but also the cleanest and safest environment.
